

Our company as an employer

SSI SCHAEFER – a leading address for appealing job openings.

Our company group is one of the world's leading providers of intralogistics. Our product range extends across highly dynamic warehouse and logistics systems, the latest workshop, plant and office equipment as well as innovative products for waste technology and recycling. SSI SCHAEFER stands for the highest quality level in the logistics sector, which is why we continue to optimise our technologies on an ongoing basis. The expansion of global sales activities, customer-oriented flexibility and the focus on sustainable collaboration form part of our standard operations and represent the foundation of our success. This basis of long-term relationships is extended to our customers as well as our suppliers and our future-oriented employees.

More than 8000 employees stand fully behind the progress of our company group; at over 50 sites and in 16 company-owned production sites around the world.

For over 70 years, our approach is not simply to meet our customers' expectations, but wherever possible to exceed them. Despite impressive levels of international expansion, it has remained unchanged since the company's beginnings: we are a family company and we intend to remain that way in the future. This also indicates endurance and sustainability even in times of globalisation.
