2-wheel containers

Municipalities all over the world as well as private waste management businesses and industrial companies are successfully using our products. Quality, stability and longevity are their most renowned features – even under challenging climatic conditions.

SSI SCHAEFER offers waste containers with a volume of 60, 80, 120, 140, 180, 240 and 360 litres. Upon request, we will brand the bins with your logo or the coat of arms of your city. Additional accessories such as locks (for lockable bins), noise reduction, foot-operated lid-opener and spare parts are also available.

Are you interested in waste containers with ident-system?

The intelligent waste ident-system allows you to track the amount of recyclable material you collect and optimize the waste collection schedule. Get in touch with us to find out more!

Still not entirely convinced?

Our waste containers have a service life of 25 years and more. Afterwards they themselves will be recycled, so that the material, be it plastic or metal, can be used again.
